The transfusion medicine and cellular therapies landscape is changing like never before, and it can be challenging to keep up to date with developments. The Technical Manual is a valuable resource that helps newcomers and seasoned professional alike find the information they need to stay ahead of the changes currently unfolding. Expert chapter authors give you the benefit of their knowledge and experience. What's new: Completely revised and expanded patient blood management content to reflect recent developments and initiatives. Enhanced suite of chapters on the most relevant topics of interest to cellular therapy professionals. Immunohematology chapters reflecting both serologic and molecular aspects. Methods provided in SOP format on accompanying USB flash card for easy adoption and customization by your facility. Helpful appendices that can be uploaded to your organization's network. Edited by: Mark K. Fung, MD, PhD; Brenda J. Grossman, MD, MPH; Christopher Hillyer, MD; Connie M. Westhoff, MD, SBB

This volume is a collection of immunohematology and transfusion medicine cases, comprised of clinical vignettes and antibody panels with questions based on each case, arranged in a workbook format. The cases are based on real patient problems which are typically encountered and covers a number of common issues and challenging problems in blood banking and transfusion practice. Discussion and resolution of each case is provided in a separate answer section, including up-to-date information on pertinent advances in the field. Written by experts in the field, Immunohematology and Transfusion Medicine: A Case Study Approach provides an interactive tool to help make blood banking and transfusion medicine memorable, practical, and relevant to residents and fellows.

The perfect resource for any setting where infusion therapy skills are required! Its popular, self-paced approach makes it ideal for classroom and clinical settings as it progresses from the basics to advanced techniques while incorporating theory into clinical application.

«Facade Construction Manual» provides a systematic survey of contemporary expertise in the application of new materials and energy-efficient technologies in facade design. It surveys the facade design requirements made by various types of buildings, as well as the most important materials, from natural stone through to synthetics, and documents a diversity of construction forms for a wide range of building types.

Using a practical approach, the Manual of Veterinary Transfusion Medicine and Blood Banking provides veterinary practitioners with evidence-based guidelines to refer to at the clinical practice level. Provides evidence-based information on transfusion medicine and blood banking practices Presents sections on recipient screening, donor selection, blood collection and storage, and how to meet blood product demands Includes useful protocols for transfusions and blood banking relevant to clinical practice Incorporates the balanced perspectives of veterinarians and veterinary technicians Contains information pertaining to large, small, and exotic animals

This text provides a comprehensive, up-to-date review of chimerism. The first part of the volume presents the causes of chimerism, specifically focusing on fertilization and early embryonic errors, pregnancy and multiple gestations, and transplantation and transfusion. The second part of the volume outlines clinical identification and consequences of chimerism. Chapters in this section focus on the effects of chimerism on testing in relationship determination and forensics, prenatal genetic testing and screening, and blood and HLA typing. This part also reviews new data concerning matching donors and recipients for transplantation, while outlining the risks of transplantation, such as graft-vs-host disease and passenger lymphocyte syndrome. Additionally, evidence on the role of chimerism in autoimmune disease and cancer is presented. Written by experts in the field, Chimerism: A Clinical Guide is a valuable resource for clinicians and researchers that will help guide patient management and stimulate investigative efforts.
