The Practice of Statistics is the most trusted program for AP® Statistics because it provides teachers and students with everything they need to be successful in the statistics course and on the AP® Exam. With the expert authorship of high school AP® Statistics veterans, Daren Starnes and Josh Tabor and their supporting team of AP® teacher/leaders, The Practice of Statistics, Sixth edition (TPS6) has been crafted to follow the topical outline of the AP® Statistics course with careful attention paid to the style, nomenclature, and language used on the AP® Statistics exam. It combines a data analysis approach with the power of technology, innovative pedagogy, and an extensive support program built entirely for the sixth edition. New resources, including a robust online homework program and an extensively revised TestBank, give teachers and students everything they need to realize success on the exam and in the course.

Tailored to mirror the AP Statistics course, "The Practice of Statistics" became a classroom favorite. This edition incorporates a number of first-time features to help students prepare for the AP exam, plus more simulations and statistical thinking help, and instructions for the TI-89 graphic calculator."

Offering a unique and powerful way to introduce the principles of statistical reasoning, Statistical Reasoning in Sports features engaging examples and a student-friendly approach. Starting from the very first chapter, students are able to ask questions, collect and analyze data, and draw conclusions using randomization tests. Is it harder to shoot free throws with distractions? We explore this question by designing an experiment, collecting the data, and using a hands-on simulation to analyze results. Completely covering the Common Core Standards for Probability and Statistics, Statistical Reasoning in Sports is an accessible and fun way to learn about statistics!

Statistics and Probability with Applications, Third Edition is the only introductory statistics text written by high school teachers for high school teachers and students. Daren Starnes, Josh Tabor, and the extended team of contributors bring their in-depth understanding of statistics and the challenges faced by high school students and teachers to development of the text and its accompanying suite of print and interactive resources for learning and instruction. A complete re-envisioning of the authors' Statistics Through Applications, this new text covers the core content for the course in a series of brief, manageable lessons, making it easy for students and teachers to stay on pace. Throughout, new pedagogical tools and lively real-life examples help captivate students and prepare them to use statistics in college courses and in any career.

?his new offering from AP® teacher Karen Waples and college professor Scott Abernathy is tailor-made to help teachers and students transition to the redesigned AP® U. S. Government and Politics course. Carefully aligned to the course framework, this brief book is loaded with instructional tools to help you and your students meet the demands of the new course, such as integrated skills instruction, coverage of required cases and documents, public policy threaded throughout the book, and AP® practice after every chapter and unit, all in a simple organization that will ease your course planning and save you time. We've got you covered!

Designed exclusively for use with The Practice of Statistics by Darren Starnes, Josh Tabor, David Moore and Daniel Yates, the Strive for a Five Guide helps students evaluate their understanding of the material covered in the textbook, develop conceptual understanding and communication skills, and ultimately prepare for success, equipping them with all the skills needed to excel on the AP® Statistics Exam. This book is divided into two sections. The first is a study guide to be used throughout the AP Statistics course, and the second includes preparation with additional AP® test strategies, including two full-length AP® style practice exams, each with 40 multiple-choice questions, 5 free response questions and finished with an investigative task. These features better enforce students' understanding of the subject.

The textbook provides a comprehensive guide to teaching AP® Statistics effectively for new and experienced teachers alike. The 5th edition offers an introduction with general advice for teaching AP® Statistics, a pacing guide for the chapter featuring Learning Objectives and suggested homework assignments, and other teaching resources. Features include Teaching Tips, notes about AP® Exam common errors and using the AP® Exam formula Sheet, and integrated notes on extra resources that are available.

This book will be an ally for teachers striving to ignite a passion in their students for psychology's many relevant findings, and for students wanting to satisfy a growing curiosity about themselves, their families, their friends, and the world of people around them.
