The ACM Computing Classification System (CCS) is a subject classification system for computing devised by the Association for Computing Machinery (ACM). The system is comparable to the Mathematics Subject Classification (MSC) in scope, aims, and structure, being used by the various ACM journals to organise subjects by area.

ACM Computing Classification System -
Wikipedia

Graphic design services involve the sale of creative ideas to your client. In New York State only the sale of 'tangible personal property' is subject to sales tax*. In this way the taxability of graphic design services and drug laws have something in common: it all boils down to the 'medium
