Otto and Raven are desperate to rescue their friends from the clutches of Anastasia Furan, head of the evil Disciples organisation. First they must track down the location of the Glasshouse, the prison where Furan trains children to become ruthless assassins. But Otto is also being hunted. The three months that Otto has spent following his 'expulsion' from H.I.V.E. have given the Artemis Section an elite division of the American intelligence services that specialises in capturing the toughest targets and reports only to the President an opportunity to locate him. Deadlock is the eighth book in the breathtaking H.I.V.E. series and continues the high-octane adventures of the supremely talented criminal team, with central characters forced to question everything that Nero has taught them and to confront the consequences of life as a villain, set against the backdrop of a daring high-tech prison break where nothing is quite as it seems.

HIGHER INSTITUTE OF VILLAINOUS EDUCATION Otto Malpense may only be thirteen years old, but so far he has managed to run the orphanage where he lives, and he has come up with a plan clever enough to trick the most powerful man in the country. He is the perfect candidate to become the world's next supervillain. That is why he ends up at H.I.V.E., handpicked to become a member of the incoming class. The students have been kidnapped and brought to a secluded island inside a seemingly active volcano, where the school has resided for decades. All the kids are elite; they are the most athletic, the most technically advanced, and the smartest in the country. Inside the cavernous marble rooms, floodlit hangars, and steel doors, the students are enrolled in Villainy Studies and Stealth and Evasion 101. But what Otto soon comes to realize is that this is a six-year program, and leaving is not an option. With the help of his new friends: an athletic martial-arts expert; a world-famous, beautiful diamond thief; and a spunky computer genius -- the only other people who seem to want to leave -- can Otto achieve what has never been done before and break out of H.I.V.E.?

While en route to a training exercise in the Arctic, Otto and his friends stop off for a tour of the new G.L.O.V.E. flagship, Dreadnought, and when Dreadnought is commandeered by a rogue villain, they try to thwart his evil plans.

When missing agent Otto is suspected of leading the mysterious attacks on the leaders of the world's villainous forces, Raven and Wing race against time to find him before other G.L.O.V.E. assassins can locate him.

When Overlord resurrects with a chilling new ability to take over and then kill other bodies, Nero and his H.I.V.E. associates begin a desperate race against time to foil a G.L.O.V.E. plot to take over Otto and a secret military facility that is home to a vulnerable computer-controlled weapons system.

Sent to begin the feared Hunt in the icy wastes of Siberia, Otto and his friends prepare for a first strike against Dr. Nero only to discover a traitor in their ranks who forces the team to take sides against one another.

Otto Malpense, who is still trapped at the Higher Institute of Villainous Education, or H.I.V.E., is nearly assassinated and must now not only try to escape, but also find out who murdered his best friend--and save himself.

This ninth book in the H.I.V.E. series concludes the high-octane adventures of the supremely talented team of criminals. As the students of H.I.V.E. face the challenges of their final year at the school, Otto Malpense is forced to confront his own legacy as a new threat rises from the shadows of his past. Nothing will ever be the same again as Otto races against the clock to rescue his friends from a rival organization. But as Otto desperately fights for his friends' lives, he ends up facing a deadly enemy more dangerous and powerful than any he's faced ever before|an enemy who's a twisted product of his own bloodline. From Italy to Russia to the United States, Bloodline is a real tour de force, and a fitting conclusion to the acclaimed H.I.V.E series.
