special education. Growing research shows that many children from immigrant and refugee families are not doing well in school, due in part to linguistic and cultural disadvantages. Teaching dual-language learners requires cultural sensitivity, an understanding of language acquisition, and intentional teaching strategies. Combining research and techniques, this resource helps early childhood educators support dual-language learners as they develop the skills necessary for school readiness and success. Angèle Sancho Passe, an early childhood education consultant and writer, is trilingual and has worked with many programs serving dual-language learners. She is the author of *Is Everybody Ready for Kindergarten?*

This book provides a comprehensive and practical guide to using the project approach when teaching young children with special needs. While focusing on children's individual strengths, which include their interests, intelligences, and unique styles of learning, this resource demonstrates teaching strategies that address multiple areas of development. Using scenarios from their own practice, The authors examine the process of accessing children's strengths to facilitate social, emotional, cognitive, and motor development, including concepts and skills. The authors provide tools to determine, organize, and plan with children's strengths and demonstrate the use of documentation as an authentic assessment of children's skills and goals. Teachers will use this book to create learning environments that enrich learning

If you want to focus children's attention, you first have to capture their interest. Attention Games is filled with interesting and child-tested activities that can help children of all ages become better at focusing and paying attention. By sharing the upbeat, joyful activities in Attention Games, you can enhance your child's intelligence, boost his confidence, increase his ability to concentrate on one thing for long periods, and show that you care. Developed by Barbara Sher—parent, teacher, play therapy specialist and pediatric occupational therapist—these activities are specially designed to encourage kids to expand their powers of attention in ways that will help them throughout their lives.

A delightful way to build children's self-esteem and self-confidence--from age three to twelve. The key ingredient in children's development, emotionally, socially, and intellectually, is a strong sense of their own self-worth. The 300 games and activities in this fun book will give them just that. These joyful activities help children learn how to make friends, express feelings, trust others, accept themselves, use their imaginations, and more. The book combines upbeat, positive advice--including tips for better parenting--with step-by-step directions for each activity. BARBARA SHER, MA, OTR (Whitehorn, California) has 30 years' experience as a teacher and occupational therapist, specializing in pediatrics. Under the sponsorship of the Center for Intercultural Education of Georgetown University, she conducts self-esteem workshops for parents, teachers and children
