The original series from the Master of Fright--now a major motion picture in theaters August 7, 2015!

Dear possible reader of this book, I want to be a writer, just like my uncle Harold, who wrote a bunch of books about our friend Bunnacula. So I wrote this story. And boy! Did I ever get into trouble! My friend Delilah stopped speaking to me because I put her in my book. Uncle Harold stopped speaking to me because I didn't put him in my book. A writer's life isn't easy! But back to my story: It's about how a talented and lovable (not to mention smart) wirehaired dachshund puppy named Howie saves the world from a disgusting, evil menace named...oops, that would give away the story. But trust me, this menace is disgusting and evil, all right!!! Your friend, Howie

Every newly independent reader will be rolling on the floor--and has a chance to solve the mystery--in this wildly wacky mash-up of chapter book and graphic novel, with art on every page, interactive seek-and-find elements, and more! In this first book of the series, fourth-grade detective Logan Lang is facing the biggest case of her career. Someone--or something--is stealing everything that kids love. Toys! The amusement park carousel! Even the school playground! All of them sucked underground without a trace. Logan will have to team up with her longtime nemesis and super cop wannabe Gustavo Muchomacho if she wants to stop this subterranean scoundrel. With her serious doodling skills and his arsenal of high-tech sky mustaches, they'll race against the clock to unearth a master criminal. Bonus backmatter is loaded with extra puzzles, word jumbles, instructions for drawing suspects, and doodle activities!

With help from his Uncle Harold, who wrote books about Bunnacula, Howie the wire-haired dachshund writes a story in which he saves the world from a science experiment gone awry.

Will disgraced Navy Captain Shepard and his scientist side-kick Faust find a way to destroy the monster for good this time? Captain Shepard joins forces with the ghosts of his past to banish the that pesky mutant sea creature that just refuses to die. However, something even more sinister awaits...

This is the sequel to the cult film. In the 1950s, the U.S. Navy encountered and destroyed a gigantic octopus that attacked shipping and wreaked havoc on the west coast of the United States. American forces killed the creature and ended the threat once and for all. Or so they thought. They were wrong. Now, another monster is rising in the warm blue waters surrounding Taru Taru, a speck of land far out in the Pacific. And this time it's worse than anyone ever imagined.
