Anyone involved in trade law knows the time-consuming nature of obtaining primary source material and consulting each of the main trade laws. Now in its fourth edition, *Basic Documents in International Trade Law* solves this problem by assembling, in a single, easy-to-use resource, a very comprehensive collection of the most important and frequently used documents on the law of international trade. In addition to its obvious practical value, this work reveals much about the process of harmonization in international trade law and the operation of the key international trade bodies. This makes the book a helpful reference for international business lawyers, researchers, legislators and government officials in the field. Since the successful publication of

# Acces PDF Manuale Di Diritto Commerciale Interonale

the previous editions of the book, the appearance of new conventions and model laws has considerably enriched the law of international trade, and the present edition contains a wealth of new material. The book has been substantially revised and several new instruments have been included. Among the most significantly important improvements to this new edition are new chapters added to different parts of the book, a redesigned and thoroughly revised Part 6 reflecting the expansion of intellectual property rights under the framework of treaties administered by World International Property Organization, and bibliographies and other research resources updated and enlarged to include an extraordinarily rich collection of books and articles in many trading languages besides English, including, for the first time, major Chinese works in the international trade law field. As the late Prof. Clive M. Schmitthoff

commented on the first edition, the book ‘is not only of practical usefulness but has also considerable jurisprudential value’, and ‘reveals the methodology of the harmonization process in the area of international trade law’. The International Business Lawyer first commented in 1987 that the book ‘can only be described as a “vade mecum” for every international business lawyer’, an assessment that now seems more merited than ever.

Il presente volume intende affrontare il tema dei contratti internazionali in modo originale, da un lato concentrando l'attenzione sui temi essenziali, la cui comprensione è indispensabile per orientarsi in questa materia, e dall'altro utilizzando un metodo di esposizione, integrato con esempi e casi concreti, che faciliti la comprensione delle problematiche, non prive di complessità, relative alla cosiddetta contrattualistica internazionale. Per quanto riguarda il primo aspetto, l'autore ha cercato di approfondire gli aspetti realmente importanti per capire la materia dei contratti internazionali, tralasciando aspetti più marginali e talvolta anche

questioni importanti sotto il profilo teorico, ma di fatto prive di rilevanza concreta. Infatti, lo scopo primario del volume è di mettere il lettore in grado di comprendere a fondo le problematiche dei contratti internazionali e quindi di potersi orientare nella materia, il che non esclude la possibilità di ulteriori approfondimenti su aspetti specifici. Quanto al secondo aspetto, quello del metodo espositivo, ricorrendo ad un linguaggio semplice e il meno «tecnico» possibile, illustrando le questioni critiche con esempi concreti e, infine, utilizzando accorgimenti grafici che facilitino la lettura, è stato realizzato un prodotto editoriale che sia nella massima misura user-friendly, mettendo in primo piano le esigenze del lettore.
