Reflecting Cengage Learning's commitment to offering flexible teaching solutions and value for students and instructors, these new hybrid versions feature the instructional presentation found in the printed text while delivering end-of-section exercises online in Enhanced WebAssign. The result--a briefer printed text that engages students online! The Larson CALCULUS program has a long history of innovation in the calculus market. It has been widely praised by a generation of students and professors for its solid and effective pedagogy that addresses the needs of a broad range of teaching and learning styles and environments. Each title is just one component in a comprehensive calculus course program that carefully integrates and coordinates print, media, and technology products for successful teaching and learning.

This unique and comprehensive resource contains the complete text, as well as the complete solutions to odd-numbered exercises, chapter pre-tests and post-tests, guided examples with step-by-step solutions, tutorial exercises, animation and video, and built-in TI-82 and TI-83 emulators.

Kiss of Temptation is the third romance in New York Times bestselling author ' s Sandra Hill ' s beloved Deadly Angels series. For centuries, Ivak Sigurdsson has served the archangel Michael as a vangel – a viking vampire angel. Ready to demonstrate that he is more than just a libidinous heartbreaker, he agrees to help lawyer Gabrielle Sonnier. But while her problems are in need of serious attention, so is their attraction for one another. Sexy and sassy, Kiss of Temptation features plenty of witty innuendo, passion, and a hint of mystery. Fans of paranormal romance will enjoy this racy page-turner featuring a strong, smart heroine and a bad boy turned hero.

For decades now, scholars and politicians alike have argued that the concentration of poverty in city housing projects would produce distrust, alienation, apathy, and social isolation—the disappearance of what sociologists call social capital. But relatively few have examined precisely how such poverty affects social capital or have considered for what reasons living in a poor neighborhood results in such undesirable effects. This book examines a neglected Puerto Rican enclave in Boston to consider the pros and cons of social scientific thinking about the true nature of ghettos in America. Mario Luis Small dismantles the theory that poor urban neighborhoods are inevitably deprived of social capital. He shows that the conditions specified in this theory are vaguely defined and variable among poor communities. According to Small, structural conditions such as unemployment or a failed system of familial relations must be acknowledged as affecting the urban poor, but individual motivations and the importance of timing must be considered as well. Brimming with fresh theoretical insights, Villa Victoria is an elegant work of sociology that will be essential to students of urban poverty.

John Knox, the great Reformer of Scotland, is often remembered as something akin to a biblical prophet born out of time--strong and brash, thundering in righteous might. In truth, he was "low in stature, and of a weakly constitution," a small man who was often sickly and afflicted with doubts and fears.Author Douglas Bond shows that Knox did indeed accomplish herculean tasks, but not because he was strong and resolute in himself. Rather, he was greatly used because he was submissive to God; therefore, God strengthened him. --from publisher description

The X-ray equipment maintenance and repairs workbook is intended to help and guide staff working with, and responsible for, radiographic equipment and installations in remote institutions where the necessary technical support is not available, to perform routine maintenance and minor repairs of equipment to avoid break downs. The book can be used for self study and as a checklist for routine maintenance procedures.

Growing up in an isolated house in woodland Maine, seven-year-old Asta Hewitt exists as one of a three-person society including a delusional mother and a bookish older brother before circumstances push her into the outside world, where she struggles to assimilate while remaining true to her fractured family. Original.
