Solomon Systech launches the world's first single-chip OLED lighting driver. Solomon Systech, a fabless display driver IC producer, announced their entry into the OLED lighting market with the SSD2355, which is the world's first single-chip OLED lighting driver. The SSD2355 can drive several OLED lighting panels simultaneously. The cost-effective (4 pcs of magnetic components only) driver supports multiple-phase buck driving , a dynamic output current of 5uA to 1.2A, a wide dimming depth of ...
