Revenue from contracts with customers - PwC
The model for revenue recognition under ASC 606 is outlined in 5 steps: 1. Identifying the contract with the customer. Customer contracts are reasonably straightforward for SaaS businesses — the cost and value exchange is defined upfront on the website, and there ' s little deviance from the pre-defined structure.

determinable, collectibility is reasonably assured); the accounting for multiple elements; the ability to estimate returns; and the accounting for discounts, rebates, and incentives.

Under ASC 605

The standard ' s effect on the revenue and cost recognition models of technology entities has generally been significant. The fundamental principle at the heart of the standard is that an entity must “ recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. ”
