The AIDS quilt. Edie Windsor's victory, which overturned the Defense of Marriage Act. In this book, The Right Side of History: 100 Years of LGBTQ Activism, author Adrian Brooks tells the history of the nation's clash over civil rights with amazing stories about some of the most recognizable gay rights heroes and heroines."

The Right Side of History tells the 100-year history of queer activism in a series of revealing close-ups, first-person accounts, and intimate snapshots of LGBT pioneers and radicals. This diverse cast stretches from the Edwardian period to today. Described by gay scholar Jonathan Katz as "willfully cacophonous, a chorus of voices untamed," The Right Side of History sets itself apart by starting with the turn-of-the-century bohemianism of Isadora Duncan and the 1924 establishment of the nation's first gay group, the Society for Human Rights; it also includes gay activism of labor unions in the 1920s and 1930s; the 1950s civil rights movement; the 1960s anti-war protests; the sexual liberation movements of the 1970s; and more contemporary issues such as marriage equality. The book shows how LGBT folk have always been in the forefront of progressive social evolution in the United States. It references heroes like Abraham Lincoln, Eleanor Roosevelt, Bayard Rustin, Harvey Milk, and Edie Windsor. Equally, the book honors names that aren't in history books, from participants in the Names Project, a national phenomenon memorializing 94,000 AIDS victims, to underground agitprop artists.

"Black, Brown, Yellow, and Left is unique. No other work deals in such detail with the complex relationships between racial nationalism and the radical left during the 1960's. A powerful and

resonant achievement. Highly recommended!"—Howard Winant, author of *The World is a Ghetto: Race and Democracy Since World War II* "Laura Pulido has written an invaluable study of the development of the multiracial Third World Left in southern California. She engages black, brown, and yellow radical activism together, demonstrating how each vision differed but contributed to a movement that was ultimately more than the sum of its parts. Pulido's powerful excavation of the Third World Left's historical past provides reasons to hope for a more just, antiracist left future."—Lisa Lowe, author of *Immigrant Acts: On Asian American Cultural Politics* " We so greatly needed this panorama of information and analysis. Finally we have an author putting the pieces together with commitment, enthusiasm and a view to the future."—Elizabeth (Betita) Martínez, activist and author of *500 Years of Chicano History/500 Años del Pueblo Chicano*

The *Right Side of History* tells the 100-year history of queer activism in a series of revealing close-ups, first-person accounts, and intimate snapshots of LGBT pioneers and radicals. This diverse cast stretches from the Edwardian period to today. Described by gay scholar Jonathan Katz as "willfully cacophonous, a chorus of voices untamed," *The Right Side of History* sets itself apart by starting with the turn-of-the-century bohemianism of Isadora Duncan and the 1924 establishment of the nation's first gay group, the Society for Human Rights; it also includes gay activism of labor unions in the 1920s and 1930s; the 1950s civil rights movement; the 1960s anti-war protests; the sexual liberation movements of the 1970s; and more contemporary issues such as marriage equality. The book shows how LGBT folk have always been in the forefront of progressive social evolution in the United States. It references heroes like Abraham Lincoln, Eleanor Roosevelt, Bayard Rustin, Harvey Milk, and Edie Windsor. Equally, the book honors names that aren't in history books, from participants in the Names Project, a national phenomenon memorializing 94,000 AIDS victims, to underground agitprop artists.

A New York Times Book Review Editors' Choice. "This is not reverent, definitive history. This is a tactician's bible." --Parul Sehgal, *The New York Times* "A masterpiece of historical research and intellectual analysis that creates many windows into both a vanished world and the one that emerged from it, the one we live in now." --Alexander Chee *Twenty years in the making*, Sarah Schulman's *Let the Record Show* is the most comprehensive political history ever assembled of ACT UP and American AIDS activism. In just six years, ACT UP, New York, a broad and unlikely coalition of activists from all races, genders, sexualities, and backgrounds, changed the world. Armed with rancor, desperation, intelligence, and creativity, it took on the AIDS crisis with an indefatigable, ingenious, and multifaceted attack on the corporations, institutions, governments, and individuals who stood in the way of AIDS treatment for all. They stormed the FDA and NIH in Washington, DC, and started needle exchange programs in New York; they took over Grand Central Terminal and fought to change the legal definition of AIDS to include women; they transformed the American insurance industry, weaponized art and advertising to push their agenda, and battled—and beat—*The New York Times*, the Catholic Church, and the pharmaceutical industry. Their activism, in its complex and intersectional power, transformed the lives of people with AIDS and the bigoted society that had abandoned them. Based on more than two hundred interviews with ACT UP members and rich with lessons for today's activists, *Let the Record Show* is a revelatory exploration—and long-overdue reassessment—of the coalition's inner workings, conflicts, achievements, and ultimate fracture. Schulman, one of the most revered queer writers and thinkers of her generation, explores the how and the why, examining, with her characteristic rigor and bite, how a group of desperate outcasts changed America forever, and in the process created a livable future for generations of people across the world.

"Reading Grace Lee Boggs helps you glimpse a United States that is better and more beautiful than you thought it was. As she analyzes some of the inspiring theories and practices that have emerged from the struggles for equality and freedom in Detroit and beyond, she also shows us that in this country, a future revolution is not only necessary but possible." --Michael Hardt, co-author of *Commonwealth* "This groundbreaking book not only represents the best of Grace Lee Boggs, but the best of any radical, visionary thinking in the United States. She reminds us why revolution is not only possible and necessary, but in some places already in the making. The conditions we face under neoliberalism and war do, indeed, mark the end of an era in which the old ideological positions of protest are not really relevant or effective--and this book offers a new way forward."--Robin D.G. Kelley, author of *Freedom Dreams: The Black Radical Imagination* "Grace Boggs has long been a major voice of hope and action for transformation of the United States and the world. Here is her testimony of hope and program for action. It must be taken seriously." --Immanuel Wallerstein, author of *Utopistics: or, Historical Choices of the Twenty-first Century* "One of the most accomplished radicals of our time, the Detroit-based visionary Grace Lee Boggs has become one of our most influential and inspiring public intellectuals. *The Next American Revolution* is her powerful reflection on a lifetime of urban revolutionary work, an ode to the courage and brilliance of her late partner James Boggs, and a plain-spoken call for us to address the troubled times we face with a sense of history, a strong set of values, and an unwavering faith in our own creative, restorative powers." --Jeff Chang, author of *Can't Stop Won't Stop*

This comprehensive sourcebook covers the evolution of LGBTQ engagement in American politics, from the emergence of gay rights as a political issue in the early 1970s to the present day, when LGBTQ issues occupy a prominent place in politics. • Provides historical essays detailing the evolution of LGBTQ Americans in U.S. politics as voters, candidates, and officeholders • Offers more than 250 reference entries of individuals, organizations, cultural forces, political issues, and legal decisions • Presents primary documents of additional insight into major events, issues, and individuals associated with LGBTQ politics • Features a chronology of events for at-a-glance coverage of the most important

events in LGBTQ history • Includes an appendix of LGBTQ organizations involved in politics

In civil-rights-era Chicago, a dedicated group of black activists, educators, and organizations employed black public history as more than cultural activism. Their work and vision energized a black public history movement that promoted political progress in the crucial time between World War II and the onset of the Cold War. Ian Rocksborough-Smith's meticulous research and adept storytelling provide the first in-depth look at how these committed individuals leveraged Chicago's black public history. Their goal: to engage with the struggle for racial equality. Rocksborough-Smith shows teachers working to advance curriculum reform in public schools, while well-known activists Margaret and Charles Burroughs pushed for greater recognition of black history by founding the DuSable Museum of African American History. Organizations like the Afro-American Heritage Association, meanwhile, used black public history work to connect radical politics and nationalism. Together, these people and their projects advanced important ideas about race, citizenship, education, and intellectual labor that paralleled the shifting terrain of mid-twentieth century civil rights.

During the past four decades, the international lesbian, gay, bisexual, and transgender rights movement has made significant advances, but millions of LGBT people continue to live in fear in nations where homosexuality remains illegal. The International LGBT Rights Movement offers a comprehensive account of this global force, from its origins in the mid-nineteenth century to its crucial place in world affairs today. Belmonte examines the movement's goals, the disputes about its mission, and its rise to international importance. The International LGBT Rights Movement provides a thorough introduction to the movement's history, highlighting key figures, controversies, and organizations. With a global scope that considers both state and non-state actors, the book explores transnational movements to challenge homophobia, while also assessing the successes and failures of these efforts along the way.

"Reading this book revives the spirit of civic action today for those who are unjustifiably forlorn about overcoming injustice."—Ralph Nader An on-the-ground history of ordinary Americans who took to the streets when political issues became personal The 1960s are widely seen as the high tide of political activism in the United States. According to this view, Americans retreated to the private realm after the tumult of the civil rights and antiwar movements, and on the rare occasions when they did take action, it was mainly to express their wish to be left alone by government—as recommended by Ronald Reagan and the ascendant New Right. In fact, as Michael Stewart Foley shows in *Front Porch Politics*, this understanding of post-1960s politics needs drastic revision. On the community level, the 1970s and 1980s witnessed an unprecedented upsurge of innovative and impassioned grass roots political activity. In Southern California and on the Lower East Side of Manhattan, tenants challenged landlords with sit-ins and referenda; in the upper Midwest, farmers vandalized power lines and mobilized tractors to protect their land; and in the deindustrializing cities of the Rust Belt, laid-off workers boldly claimed the right to own their idled factories. Meanwhile, activists fought to defend the traditional family or to expand the rights of women, while entire towns organized to protest the toxic sludge in their basements. Recalling Love Canal, the tax revolt in California, ACT UP, and other crusades famous or forgotten, Foley shows how Americans were propelled by personal experiences and emotions into the public sphere. Disregarding conventional ideas of left and right, they turned to political action when they perceived, from their actual or figurative front porches, an immediate threat to their families, homes, or dreams. *Front Porch Politics* is a vivid and authoritative people's history of a time when Americans followed their outrage into the streets. Addressing today's readers, it is also a field guide for effective activism in an era when mass movements may seem impractical or even passé. The distinctively visceral, local, and highly personal politics that Americans practiced in the 1970s and 1980s provide a model of citizenship participation worth emulating if we are to renew our democracy.

In this Second Edition of this radical social history of America from Columbus to the present, Howard Zinn includes substantial coverage of the Carter, Reagan and Bush years and an Afterword on the Clinton presidency. Its commitment and vigorous style mean it will be compelling reading for under-graduate and post-graduate students and scholars in American social history and American studies, as well as the general reader.
