care-free living an HOA promises. Written by industry experts, Trade HOA Stress for Success will give every member a shortcut to years of HOA management experience without learning wisdom through costly mistakes.

Burnout is more than just stress - it's how your mind and your body tell you a change is needed. Whether you're a homeowners association property manager, board member or a homeowner who is part of a homeowners association, the pressure to work harder to the point of exhaustion can be a reality. This book explores proven methods to transform your board from a crisis-driven, over-worked, and isolated group into a focused team with clear goals and direction. Learn to communicate the board's success to your members and create the kind of care-free living an HOA promises.

The ultimate guide to choosing and creating a harmonious community of good neighbors and peaceful living.

This book is designed as a course to enhance Board Members' abilities to run their community more effectively. This is written for both current and potential Board members. Dealing with reviewing documents, conducting effective meetings, rivitalizing your community,

committees, budgets and much much more.

Reserve Fund Essentials (RFE) has been written to deliver a wealth of real-life practical know-how and insights. It focuses principally on the creation and maintenance of reserve plans for co-owned buildings and properties. These include condominiums and townhouses as well as developments often referred to as homeowners' associations, gated communities and managed properties. Membership facilities, such as golf clubs, lodge organizations and religious institutions will also find RFE of value. RFE includes material on setting up and working with properties' operating budgets. One of the main thrusts of RFE is on the establishment of adequate balances in reserve funds and in operating budget accounts. RFE will appeal to the co-owners of units in the just-described properties. Co-owners are often quite unfamiliar with decisions that affect their funding or operating fee-contributions. Professional service providers including reserve planners, property managers, and accountants will also find the coverage in RFE useful, not only for their own edification but also to help explain these areas to their clients. RFE has been widely accepted by readers in the United States and in Canada as a source of solid, easy-to-understand material and useable opinions and advice.

I wrote this book to serve as a "primer" on the basics of what you can do to: â€¢Make your personal time on the board more satisfying  
â€¢Produce value for the homeowners in your HOA â€¢Encourage other homeowners to volunteer to make their HOA a better place to live. This is a "foundation" book. I want you, as a volunteer board member, to have a foundation of knowledge in what a homeowners association is and how it should work. I have seen too many homeowners associations in which new board members have no basic knowledge in association best practices and they get caught up in the emotions of making decisions for their neighbors. Their volunteer time turns in to a frustrating experience and the existing problems persist with the association. With a good foundation, I believe you will be able to learn more about community associations and the common issues that confront them. With this book, you will have an outline that will help you organize your thoughts, build on a solid framework and make your volunteer time valuable to you and to your neighbors.

A Framework for HOA Management is a comprehensive look at the many issues which face current and prospective board members of a typical homeowner association. On completion, the reader will have the necessary tools and understanding to manage their HOA and the ability to confront even the most unexpected situations effectively.--
