After decades of planning and building for cars, it is time to make mobility about people. Transportation planning and decision-making must specifically take into account the people whose needs have traditionally been marginalized or ignored altogether, and prioritize communities of color and low-income neighborhoods.

## **NPTEL :: Civil Engineering - Urban transportation planning**

Transportation management is a major part of urban planning and development. Urban areas worldwide are rapidly expanding and so is the urban population. Urban planning majorly impacts how much a city supports business growth, and of which transportation management has a key role to play. City transportation influences per capita expenditure and revenues to a large extent and thus a country's GDP.
