Veteran statesmen George McGovern and Robert Dole here find common cause with theologian and activist Donald Messer in this powerful testimony and appeal to people of faith. They are each convinced we can overcome global hunger now, and their informed, strategic, impassioned thoughts encourage and equip. This book brings together their disparate yet powerful voices behind a shared conviction: that helping the millions who lack basic provision for food has become a religious imperative and human priority. Writing for congregations and individuals of faith, McGovern, Dole, and Messer appeal to the biblical, theological, and ethical foundations of action against hunger.

Do you want to make a true difference in the world? Dr. Ron Sider does. He has, since before he first published Rich Christians in an Age of Hunger in 1978. Despite a dramatic reduction in world hunger since then, 34,000 children still die daily of starvation and preventable disease, and 1.3 billion people, worldwide, remain in abject poverty. So, the professor of theology went back to re-examine the issues by twenty-first century standards. Finding that Conservatives blame morally reprehensible individual choices, and Liberals blame constrictive social and economic policy, Dr. Sider finds himself agreeing with both sides. In this new look at an age-old problem, he offers not only a detailed explanation of the causes, but also a comprehensive series of practical solutions, in the hopes that Christians like him will choose to make a difference.

In 1973, nearly a decade before the height of the Moral Majority, a group of progressive activists assembled in a Chicago YMCA to strategize about how to move the nation in a more evangelical direction through political action. When they emerged, the Washington Post predicted that the new evangelical left could "shake both political and religious life in America." The following decades proved the Post both right and wrong—evangelical participation in the political sphere was intensifying, but in the end it was the religious right, not the left, that built a viable movement and mobilized electorally. How did the evangelical right gain a moral monopoly and why were evangelical progressives, who had shown such promise, left behind? In Moral Minority, the first comprehensive history of the evangelical left, David R. Swartz sets out to answer these questions, charting the rise, decline, and political legacy of this forgotten movement. Though vibrant in the late nineteenth century, progressive evangelicals were in eclipse following religious controversies of the early twentieth century, only to reemerge in the 1960s and 1970s. They stood for antiwar, civil rights, and anticonsumer principles, even as they stressed doctrinal and sexual fidelity. Politically progressive and theologically conservative, the evangelical left was also remarkably diverse, encompassing groups such as Sojourners, InterVarsity Christian Fellowship, Evangelicals for Social Action, and the Association for Public Justice. Swartz chronicles the efforts of evangelical progressives who expanded the concept of morality from the personal to the social and showed the way—organizationally and through political activism—to what would become the much larger and more influential evangelical right. By the 1980s, although they had witnessed the election of Jimmy Carter, the nation's first born-again president, progressive evangelicals found themselves in the political wilderness, riven by identity politics and alienated by a skeptical Democratic Party and a hostile religious right. In the twenty-first century, evangelicals of nearly all political and denominational persuasions view social engagement as a fundamental responsibility of the faithful. This most dramatic of transformations is an important legacy of the evangelical left.

Over the past seventy years, World Vision has grown from a small missionary agency to the largest Christian humanitarian organization in the world, with 40,000 employees, offices in nearly one hundred countries, and an annual budget of over \$2 billion. While founder Bob Pierce was an evangelist with street smarts, the most recent World Vision U.S. presidents move with ease between megachurches, the boardrooms of Fortune 500 companies, and the corridors of Capitol Hill. Though the organization has remained decidedly Christian, it has earned the reputation as an elite international nongovernmental organization managed efficiently by professional experts fluent in the language of both marketing and development. God's Internationalists is the first comprehensive study of World Vision—or any such religious humanitarian agency. In chronicling the organization's transformation from 1950 to the present, David P. King approaches World Vision as a lens through which to explore shifts within post-World War II American evangelicalism as well as the complexities of faith-based humanitarianism. Chronicling the evolution of World Vision's practices, theology, rhetoric, and organizational structure, King demonstrates how the organization rearticulated and retained its Christian identity even as it expanded beyond a narrow American evangelical subculture. King's pairing of American evangelicals' interactions abroad with their own evolving identity at home reframes the traditional narrative of modern American evangelicalism while also providing the historical context for the current explosion of evangelical interest in global social engagement. By examining these patterns of change, God's Internationalists offers a distinctive angle on the history of religious humanitarianism.

Looks at the life and work of the provocative Catholic social reformer from the personal point of view of someone who knew her well, her granddaughter.
